Objective

Highly skilled Prompt Engineer with 5 years of experience in teaching and a strong passion for natural language processing (NLP). Adept at crafting and refining prompts to achieve optimal responses from AI models. Seeking to leverage expertise in prompt engineering to contribute to innovative projects and enhance AI-driven solutions.

Skills

Prompt Engineering: Expertise in designing, testing, and optimizing prompts for various AI models.

Natural Language Processing (NLP): Strong understanding of NLP techniques, including tokenization, sentiment analysis, and text generation.

AI Model Interaction: Proficient in working with AI models like GPT-3, GPT-4, and similar frameworks.

Data Analysis: Ability to analyze and interpret data to refine prompts and improve model responses.

Programming Languages: Python, JavaScript, and familiarity with AI development frameworks.

Teaching & Communication: 5 years of teaching experience with strong communication and instructional skills.

Problem-Solving: Creative and analytical thinker with a knack for troubleshooting and optimizing AI interactions.
